The ferry departs the V&A Waterfront for a 25-minute ride across Table Bay (*payable directly*). Here you will join a group tour lead by a local guide (some guides are former political prisoners).

Shark Alley is the channel between the two islands and is protected from the worst of the Southern Atlantic's weather. The islands and Shark Alley itself are teeming with life.

Cape Fur Seals, African Penguins and a wide variety of sea birds are commonly seen from the boat. From August to November, Southern Right Whales are spotted almost every day as well. Boat trip lasts 2 to 2.5 hrs.

With designated toilets for males & females, canvass dressing cubicle for extra privacy, double staircase for easy access to top deck and spacious top deck for unobstructed viewing and a unique photographic platform, this is a great way to visit the sharks!

Approx. 7 miles offshore from Gansbaai, you find two islands, Dyer Island and Geyser Rock, situated next to each other. Shark Alley is the channel between the two islands and is protected from the worst of the Southern Atlantic's weather. The top of the cage is covered. Guests do not need dive experience to be allowed in the cage. There is the opportunity to watch the sharks feeding from the safety of the boat where photographs and video footage may be captured at close range. FALSE BAY SHARK ECO CHARTER

African Shark Eco Charters, owned and run by shark expert Rob Lawrence, was created to advance the understanding of sharks. Through research it was discovered that False Bay is the unique feeding ground for great whites where they breach out of the water. Rob is seriously “hands on” and still goes on almost every trip.

On these trips you hope to witness sharks feeding on seals and their breaching. Rob continues shark research, filming and viewing and in the years following the discovery of this site has learned much about the sharks and ecosystem of the area. Rob and his team are eager to share their knowledge with you.

You will be transferred to Simonstown (45 minute drive). Morning tours depart early (7am sharp) and are preferred for the chance to witness a breach. The afternoon tour departs at 12:00pm and concentrates on cage diving. You will then board the vessel and cruise out to Seal Island in False Bay. The boat capacity is limited to 12 people to ensure everyone has a personal experience.

No qualifications for shark cage diving are necessary! The cage floats just under the surface of the water and is situated alongside the boat (cage holds a maximum of 2-4 people). No experience is needed as all scuba equipment stays on board and only the scuba hose (hookah) enters the cage. You are welcome to snorkel if you don't wish to scuba dive. The trip is approximately 3.5 hours long.

Price: Jan-Jun 14 / Sep-Dec - \$300.00 pp / Jun 15-Aug - \$350.00 pp (based on 2+ pax)

**Bring your swimsuit, towel, some warm clothes (can get chilly on the water), rain/wind jacket, camera, sunscreen and hat/cap.*

CULTURAL EXPLORATION WITH UTHANDO – Half day

This is not a township tour, but rather a heartfelt cultural exploration that gives you an insight into the history of South Africa and the lives people encounter in the townships. Uthando sponsor a large number of projects and underprivileged people, this tour allows you to experience the help Uthando offer as well as see the people empowered in a sustainable way. This half day trip included visits to a community vegetable garden, a day care orphanage and an entrepreneurship & education project. For me the highlight of the day was visiting the senior's project, meeting and communicating with the 'oldies' and seeing the hope that this project instills in these elders, with a wealth of history and wisdom. Uthando allows you as the 'tourist' to experience and understand the history and the struggle people of the townships have lived and portray in a heartfelt and passionate way can be done to change this.

Cape Town Touring Trip Reports

In Cape Town - Andrew was our guide and he was fantastic!

Pam Hymel

Our guide in Cape Town was a retired teacher and we had a fascinating couple of days learning about everything from the history to the culture to the wildlife of South Africa, in addition to everything we saw on the tour.

Debbie North

Our guide was a 62 year old retired history teacher who has lived his entire life in Cape Town and loves the place and people. H took us all over the place, looking at the penguins, the garden, out around the peninsula and a variety of places in the city. He was more than happy to talk about local and national politics. Of all of the people we dealt with on our trip, he is the one who seemed most likely to actually come visit Alaska sometime.

Lauren Huff

We all were thrilled with Margrit as our tour guide. She was very knowledgeable, flexible and a lot of fun to tour with. She had great suggestions museums and other attractions to visit and for places to eat (we especially enjoyed the Green Dolphin for dinner and jazz).
