Kruger National Park is the largest South African game park and has more species of wildlife than any other game sanctuary in Africa. Along the western border of Kruger a number of privately owned wildlife reserves are located. A very important advantage private reserves have over national parks is that private reserves use open vehicles, which give not only a better view but also a more authentic feel of the bush.

At most reserves, a game tracker sits on the hood or the back of each vehicle. Drivers are in radio contact with each other, greatly increasing the chances of finding those species that safarifiers want to see most. The reserves are home to large populations of elephant, buffalo, Burchell's zebra, greater kudu, giraffe, impala, white rhino, black rhino, hippopotamus, lion, leopard, cheetah, wild dog among others. Vehicles may leave the road to pursue game through the bush. Night drives, provide an opportunity to spot nocturnal animals rarely seen during the day.

DAY 07 SZKUKUZA/MPUMALANGA/LIVINGSTONE/VICTORIA FALLS

(*Savanna Lodge or Makanyi*) This morning transfer by vehicle to the Mpumalanga Airport.

Onward connecting scheduled flight to Livingstone, Zambia. On arrival you will be met and transferred across the border to Victoria Falls, Zimbabwe and your hotel.

The world-famous Victoria Falls were discovered in 1855 by Scottish explorer, David Livingstone. As news of the falls spread it attracted traders and a small settlement, originally called "Old Drift" was established on the Zambian side of the falls. A bridge was built over the Zambezi Gorge as part of the Cape-to-Cairo railway in 1902 making it possible for people to visit the village of Victoria Falls. In 1906 the iconic Victoria Falls Hotel was built and put the thriving village on the map. It officially became a town in 1972. Today it is the jumping off or finishing point for many safaris and offers a variety of exciting activities such as world-class white water rafting and elephant interactions.

The afternoon is a good time to view the falls (park entry fee US\$30 per person). Victoria Falls is approximately 5600 feet wide, twice the height of Niagara Falls, and one and one half times as wide. It is divided into five separate waterfalls: Devil's Cataract, Main Falls, Horseshoe Falls, Rainbow Falls and Eastern Cataract, ranging in height from 200-355 feet. Fortunately the area immediately around the falls has not been commercialized, and there are unobstructed views from many vantage points connected by paved paths.

Be prepared to get wet as you walk through the rain forest surrounding the falls, a result of the continuous spray. A path called the Chain Walk descends from near Livingstone's statue into the gorge of the Devil's Cataract, providing an excellent vantage point.

Trip Reports:

Oh, my Oh my, Oh my...

Where do I begin? That was THE most well run perfectly executed vacation I have ever had.

Even the weather you organized to perfection. Cool mornings and evenings, lovely warm days. Animals everywhere we turned. I don't know how you got the animals to show up right when we were there. Even warthogs waiting near the tarmac as we landed near Kirkman's Kamp....

We had a herd of bachelor elephants swimming right next to our boat in the Chobe River. We are driving back to camp in early dusk and a tower of 11 giraffe is standing in the road waiting to say goodnight.

I could go on forever. We were met everywhere we went so no stress as to how to get from here to there. Our private guide in Cape Town was knowledgeable, friendly and flexible. We changed our minds on one stop and asked for another and it was done and fitted into our schedule smoothly and efficiently.

I cannot thank all of you enough for the wonderful job. It truly was an experience of a lifetime.

Thank you so much

Deb Strob, May 2017

Muchenje was by far the adult's favorite place to stay because it seemed "African", if that makes any sense. Lots of wonderful game drives with a very knowledgeable ranger. Lovely evening campfire and camaraderie around the dining table. Most memorable experience was the morning boat safari on the Chobe River where we accompanied a large herd of elephants as they swam over to an island.

Barbara Lyndrup, May 2017

South Africa's safari was over the top and probably our highlight! We did not expect MalaMala to be that nice and luxurious so we were pleasantly surprised. As promised the game viewing was beyond expectations. There were a few times we had to decide between which animals we wanted to see because of all the options! I also really liked that there were only 3 vehicles per sighting which made it feel more intimate. We saw everything, big 5, active cheetahs, leopards eating and mating, lion prides, male lions, giraffe, elephants playing. It would be hard to go to other reserves after that one! They were definitely set up for tourism and had done this before and perfected it.

I hope this helps! It was a fabulous trip and you guys really take the thinking out of it for us which makes traveling so much easier.

I thank you again,

Amanda Olusanya, Jan 2017
