Trip Report:

During our stay in Mwiba our highlight was following painting dogs on the hunt where we watched them kill 4 wildebeest calves. Cheetah were every where as were the lion and of course the Wildebeest migration. The migration was a highlight where we sat spell bound watching 3 births as well as thousands of wildebeest and zebra gathering around watering points. We also managed to locate a relaxed leopard in a tree!

Sue Petit

Terri and I are about halfway through our trip and having an AMAZING time. Everything has been perfect. We're currently enjoying a great lunch at Singita Mara River Camp after watching our first crossing, sitting among a herd of elephants (including the 3 babies) for an hour and photographing 3 male and 1 female lions in amazing light. I know, they are all things you have seen a thousand times but we are so grateful for this trip and the help you all provided. Just wanted you to know!...

Terri was afraid I had such high expectations that no experience could live up to them. But I have to say the actual trip exceeded our expectations in every regard.....in large part due to you all. The trip was planned perfectly...accommodations top notch (Ngorongoro Crater Lodge, Singita Faru Faru and Mara River Camps), all of our drivers, guides, reservations etc were all perfect! And, my request to you all to try to provide a great room actually made it through to all properties and were respected....we had perfect accommodations. Lastly, the wildlife we saw and what we learned about it was beyond what we imagined.

All the best, **Randy and Terri Potts**
